ODEWABI KEHINDE JOHN

Data Analyst

LinkedIn | Portfolio | kehindeodewabi@gmail.com | +2348129899448

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience turning operational and financial data into clear, actionable decisions. Skilled in data cleaning, transformation, exploratory analysis, and dashboard development, with a record of improving data accuracy and reliability. Completed an 8-week Microsoft Fabric track covering ingestion, semantic modelling, and Power BI reporting.

CORE COMPETENCIES & TECHNICAL SKILLS

Operational & Financial Data Analysis ● Data Cleaning & Transformation ● Exploratory Data Analysis (EDA) ● Data Ingestion & ETL Pipelines ● Semantic Data Modelling ● KPI Monitoring & Performance Analysis ● Business & Regulatory Data Reporting ● Insight Generation & Reporting ● Problem Solving ● Attention to Detail ● Stakeholder Communication ● Team Collaboration.

SQL/T-SQL ● Excel ● Power BI (DAX) ● Microsoft Fabric (Lakehouse, Data Factory, Dataflow Gen2) ● Tableau ● Looker Studio

PROFESSIONAL EXPERIENCE

Data Analyst – Data Arc *Jan 2026 - Present*

- Designing and deploying survey forms to collect primary data for analysis.
- Sourcing and curating publicly available datasets for independent analytical projects.
- Cleaning, transformation and analysis of datasets using Excel and SQL to ensure data accuracy and reliability.
- Developing interactive dashboards in Power BI to visualise KPIs and support data-driven decision-making.
- Generating periodic performance reports and collaborating with cross-functional teams to turn data into operational decisions.

Data Analyst (NYSC) – National Agricultural Insurance Corporation (NAIC) — Abuja *Jun 2025 – Mar 2026*

- Cleaned, validated, and transformed underwriting data using Microsoft Excel to improve data accuracy and usability.
- Prepared business data for NAICOM regulatory submissions using Excel-based reporting templates.
- Performed sorting, filtering, calculations, and summarization in Excel and SQL to support timely underwriting decisions.
- Collaborated with team members, maintaining structured and reliable datasets across shared Excel workbooks.

Data Analyst Intern – New Horizons Learning Institute-Abuja [Link to Project] *Oct 2025 – Dec 2025*

- Performed data cleaning, transformation, and validation using Microsoft Excel.
- Conducted exploratory data analysis (EDA) to identify trends and insights.
- Designed dashboards in Power BI and Tableau to support data-driven insights.
- Prepared analytical summaries and reports using Microsoft Word.

PROJECTS

TechStylers Retail Analytics Platform — Microsoft Fabric Capstone

Built an end-to-end retail analytics platform in Microsoft Fabric: ingested data into a Lakehouse with Data Factory pipelines, transformed it with Dataflow Gen2, loaded a warehouse, and modelled a Direct Lake semantic model serving a four-page Power BI report.

Tools: *Microsoft Fabric (Lakehouse, Data Factory, Dataflow Gen2, Warehouse), Power BI*

Delivery Logistics Performance Analysis View Dashboard

Delivery operations lacked visibility into where fulfilment was breaking down, so I built a Tableau dashboard analysing fulfilment rates, delays, and regional performance, pinpointing bottlenecks to prioritise improvements.

Tools: *Tableau*

Nigeria Decides — Presidential Election Analysis (2019 & 2023) View Analysis

With INEC and NBS election data fragmented across sources, I built an interactive Power BI dashboard integrating results from all 36 states and the FCT, surfacing regional voting shifts and party performance.

Tools: *Power BI, Excel*

Nigeria Malaria Burden Analysis View Analysis

National malaria data wasn't segmented enough to guide targeted response, so I analysed 2024 NDHS data on 27,783 children to map prevalence by region, wealth index, and rural/urban status, surfacing equity gaps.

Tools: *Power BI, Excel*

EDUCATION AND CERTIFICATIONS

- B.Sc. Zoology — University of Ilorin (2019–2024)
- Data Analytics with Microsoft Fabric (8-Week Track) — TechStylers 2026
- Data Analysis Certificate — New Horizons Learning Institute 2025
- Deloitte Data Analytics Certificate 2026
- Data Analytics with AI — Sololearn 2025
